

You won the contract. We help you deliver it.

For prime contractors delivering awarded state and local government programs.

START WITH THE PROGRAM. DEFINE THE WORK TOGETHER.

We help primes turn awarded requirements into work we can deliver. We study the program, develop a delivery concept, and clarify the actual need with your team. Together, we define a work package Rutledge can own.

FOUR CAPABILITIES. DEFINED DELIVERY WORK.

Example packages below are illustrative; scope is agreed with your team.

Executive Program Delivery

Program governance, PMO workstreams, transition, risk management and executive reporting.

Example: Establish a governance and reporting workstream.

AI Decision Support

Practical AI for information review, knowledge access and decisions supported by human review.

Example: Develop and evaluate a bounded knowledge workflow.

Data Intelligence

Data integration, analytics, dashboards, reporting and performance measurement.

Example: Build a dashboard with agreed data definitions.

Mission Technology

Applications, integrations, cloud capabilities and technology implementation.

Example: Deliver an integration with testing and handoff.
